

SRIKAVINESH M

Coimbatore, Tamil Nadu | srikavinesh.m2024ece@sece.ac.in | +91 7397157443 | github.com/sri-067

EDUCATION

B.E. Electronics and Communication Engineering (CGPA: 7.1)

Sri Eshwar College of Engineering, Coimbatore | 2022 - 2026

EXPERIENCE & INTERNSHIPS

Digital Twin Intern | Praya Labs

Jan 2026 - Present | Coimbatore, IN

- Developed interactive 3D digital twin models and simulations using Unity and Blender for IoT ecosystems and industrial controls.
- Integrated sensor telemetries to sync physical devices with real-time virtual spatial interfaces.

AR/VR Developer Intern | Fusion VR

Jan 2026 - Present | Coimbatore, IN

- Designed immersive virtual reality environments, styled 3D environmental assets using Blender, and coded spatial interactions in Unity.
- Built low-latency Standalone VR pipelines using Unity and C#.

SELECTED PROJECTS

Healthcare Portal | MERN Stack, MongoDB, Express, React, Node.js

- Developed telehealth portal enabling patients and medical personnel to manage records and track live vitals telemetry dashboards.

Student ID QR | React, Node.js, Express, MongoDB, QR Codes

- Created a visitor and student scanner check-in logging system using instant QR codes and MERN dashboards.

Lost & Found | React, Firebase, GeoMap APIs

- Developed community map reporter allowing students to pin and catalog lost campus objects.

TECHNICAL ARSENAL

Frontend & UX: React, Next.js, HTML5, CSS3, TailwindCSS, JavaScript

Backend & IoT: Node.js, Express, MongoDB, Firebase, MySQL, IoT telemetries

3D/XR & Tools: Unity, Blender, C#, Python, Java, Git, GitHub

ACHIEVEMENTS

- **2nd Place / Createathon '24** | Web hackathon runner-up at Sri Eshwar College of Engineering.
- **VIT Mauritius Tech-Ideathon 2026** | Active participant representing IoT design systems.
